

Cavitation Tunnel Model Tests Results

Nozzle efficiency for slipstream contraction $\sigma=b/a$

(1) - Nozzle 19a model test for Re 275,000 - 550,000

(2) - Nozzle N-5-17 model test for Re 275,000 - 550,000

(3) - Nozzle N-5-17 model test for Re 0 - 160,000
